People Freed

Our Schools4Freedom bring entire villages to freedom by educating children and empowering adults to use the legal system to fight their slave owners and free themselves from slavery. We've helped bring thousands of people to freedom and restore their hope and dignity as human beings.

lasting freedom

IN JUST 3 YEARS, BETWEEN 100 TO 200 VILLAGERS ARE COMPLETELY FREE FROM SLAVERY. FOREVER.

The school we build is the distribution channel for knowledge about the villagers' rights, their ability to organize for freedom, and their hope for a better life.

THE ISSUE

40.3 million slaves are in the world right now. These are real slaves under the harshest definitions: people forced to work under threat of violence, without pay and unable to walk away. They are trapped in brothels, factories, mines, farm fields, and restaurants. More than half are women and children. There are more slaves today than any other time in human history.

OUR MISSION

Voices4Freedom is a nonprofit organization dedicated to abolishing slavery in our lifetime. Through our Schools4Freedom program, we build schools that serve as the catalysts to help bring entire villages in northern India to freedom. We are a passionate, committed, and experienced team with a singular focus to end slavery in our lifetime.

"Put simply, Voices4Freedom stops slavery in the lives of individuals and even in whole communities."

Signs that someone may be enslaved in your own backyard:

- Unable to leave their job
- Do not control their earnings
- Unable to move freely or is being watched or followed
- Is afraid to speak in the presence of others
- Shows signs of being assaulted
- Passports and other documents have been taken away
- Has been cheated into paying debt

If you suspect someone is being enslaved, DON'T INTERVENE. It can be harmful to the victim and yourself.
